Research Team Feedback:

1. The process of selecting a category each time is cumbersome, and there is a requirement to upload the report.
2. A preference for a more straightforward template, similar to the previous version.
3. The previous CMS will allow the user to publish the report immediately without requiring approval from checker.

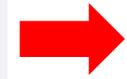

Expected CMS template:

Research

Filter and Order Search for

Title	Date	Category	Stock Code	Keywords	Attachment

Proposed Change:

1. Remove the **“View All Reports”** button from the category tiles.
2. Replace the category-based navigation with a **single consolidated list view** that displays:
 - **Date**
 - **Category**
 - **Research Title**
3. Include search and filter options (Date Start, Date End, Search bar, Show entries dropdown) for easier access.
4. Pagination remains at the bottom for navigation.
